

Middleware GSD (WS 2017) – Exercise 3

Submitted: 10. Nov.2017

Description:

Educational Objective:

Advanced Servlet Concepts

Task 1 (Shopping Cart Servlet):

Please write a Java Servlet implementing shopping cart functionality (Make sure that each client get its own shopping cart and that the items are put into the right shopping cart).

Task 2 (Context):

Which types of (web) context do exist in servlets? How can access to a context be implemented in a servlet?

Modify your tax servlet so that it manages how often the processRequest method of the servlet already has been executed in an access counter (please write counter value to `System.out.println`).
