

Middleware GSD (WS 2017) – Exercise 7

Submitted: 29. Nov. (06. Dec.)2017

Educational Objective:

Java Database Connectivity (JDBC)

Task 1 (JDBC and Servlets):

Modify your Tax Servlet so that for each calculation a record with amount, tax rate, currency, date and time of the call is written to a database table in a DBMS (e.g. MySQL or Derby). Please implement also a function to display all tax records of a given day.
